Intern, SYNC INTERN'S

Apr 2023 – May 2023

Used React.js to create Apps as an online intern, showcasing front-end skills.

PROJECTS

E-LEARNING PLATFORM (REACT),
SANAD PLATFORM

- Spearheaded frontend development, creating responsive websites with comprehensive features for educational users.
- Utilized advanced technologies, collaborated with a cross-functional, agile and skilled team, and delivered multiple websites, significantly expanding Knowledge and leaving a lasting impact.

E-COMMERCE WEBSITE (REACT)

- Developed an e-commerce site with a product catalog, shopping cart, checkout, and wishlist. Utilized react-router-dom for navigation and axios for fetching data.
- Integrated formik for form validation, react-toastify for notifications, and framer-motion for animations to ensure a responsive, interactive site.

WEATHER SYSTEM (REACT) / (JAVASCRIPT)

- Developed a real-time weather system alone using HTML, CSS, Bootstrap, JS, React.js, API, Axios, and React-router-dom.
- Successfully built a user-friendly weather system that accurately displayed current and future weather data, gaining front-end development and UI design experience.

RECIPES WEBSITE (REACT) / (JAVASCRIPT)

- Created a recipes website, categorized by countries, categories, and ingredients, utilizing a API and regex for contact us.
- Gained experience working with API integration and regex.

GAME REVIEWS WEBSITE (REACT) / (JAVASCRIPT)

- Proficiently implemented JavaScript-driven user interaction for dynamic category selection and game details presentation.
- Enhanced OOP skills, elevated front-end development expertise, mastered API integration, and crafted an engaging UI/UX experience for game review enthusiasts.
